FOR IMMEDIATE RELEASE

Hurricane Sally left widespread damage across our beautiful Gulf Coast that will take residents and business owners some time to clean up and recover. Our thoughts and prayers are with our neighbors in these affected areas. Unfortunately, unscrupulous operators frequently seek to take advantage of disaster victims and targeting those struggling to recover.

It is very important to protect yourself during this time and be very aware of those individuals that may try to take advantage of you while your guard is down focusing on cleaning up and repairing your home or business. Always ask to see their license and verify their references before you sign a contract. Do not rush into decisions and do not allow someone to rush you in to making decisions without doing due diligence to avoid being scammed. All electrical contractors performing work in the State of Alabama are required to have a license. If you need to verify someone's license, please call our office at 334-420-7232 or visit our web site at www.aecb.alabama.gov.

Please do not hesitate to contact Board if we can assist in any way.

Thank you and stay safe!

Keith E. Warren
Executive Director
